

New Property Maintenance Code Enforcement Partner

Columbia Township has signed a contract with Sycamore Township to provide property maintenance code enforcement services beginning January 1, 2016. This action was undertaken to make enforcement activities more efficient, more automated and less costly.

There are no changes to the enforcement process itself, only the contact points will be different. Instead of emailing or calling Columbia Township, residents are asked to register a complaint or make inquiry at columbia@sycamoretownship.org or call 513-792-7256. If r calls are placed to Columbia Township, the party will be directed to call the 513-792-7256 telephone number.

The township is pleased to develop this partnership with Sycamore Township. This will make our property maintenance code enforcement activities more timely, more professional and more effective.
